ENTER THE WEAVE

THE FUTURE IS HERE

72nd Revision,
With an introduction by
Weackard Vestrøm, creator
of the *WEAVE* and founder
of *Regional Integration
Solutions, LLC.*

A Foreword
by Weackard Vestrøm

Creator of the *WEAVE®* and founder of *Regional Integration Solutions, LLC.*

Dear consumer,

If you are reading this, you have just purchased a WVdevice®, and are ready to dive into the endless universe of the *WEAVE®*. Congratulations! This is the most successful decision you have ever made in your life.

I originally created the *WEAVE®* as a way to connect advertisers who were willing to pay good money with consumers who were gullible enough to also pay good money while getting nothing in exchange. Over the past few years, however, the *WEAVE®* has grown into a space with actual content to consume, and no one is happier about it than me, Weackard Vestrøm. While I should not claim credit for all of the incredible content that has been created and plotted onto the *WEAVE* by its users, I will. Thanks to me, Weackard Vestrøm, you now have access to dozens of different WVorbs®, each populated by dozens of WVplots®, almost all acquired at an affordable rate by third party consumers. I encourage you to make the most out of your purchase, and skate to all of the plots you can. This short guide includes information on how to correctly identify your WVdevice®, plug to the *WEAVE®*, and efficiently skate to any WVplot® using *Regional Integration Solutions, LLC's* state of the art technology, created by me, Weackard Vestrøm.

Soon enough, you might find yourself wanting to create your own WVplot® and contribute to the WVskater community. Great news! This guide also includes information on purchasing a WVplot® from *Regional Integration Solutions, LLC*, and quick tips for developing and sharing your first content bits. The best part: once plotted onto the *WEAVE®*, you will not have to worry about any issues with ownership, since we will take full custody of everything you create. However, neither *Regional Integration Solutions LLC*, nor me, Weackard Vestrøm will be liable for any issues arising from your content. We'll leave that to you. You're welcome!

Happy skating,

Weackard Vestrøm.

Weackard Vestrøm

Now everyone uses the *WVdevice®*

IDENTIFY YOUR

The *WEAVE®* can be accessed with a diverseset of excellent *WVdevices®*! Before connecting you will need to ensure that you are operating with the correct, and compatible, device from the compatibility list. For your convenience the list was updated in December, 2044. If your device is not on the list please yourself to *WVchat®* and enter the room "CONSULTANCY" to arrange a technical upgrade of your equipment.

Plugging to the WEAVE®

by Slandra Steverenseren

Plugging to the WEAVE® is as easy as knowing the WVorb® you want, typing in the WVway® there, knowing the WVplot® you want, typing in the WVpath® there, and waiting for your WVtech® to chart the floatroad through *Regional Integration Solutions, LLC*'s state of the art cable network system to your plot destination. There are new WVplots® to discover every day!
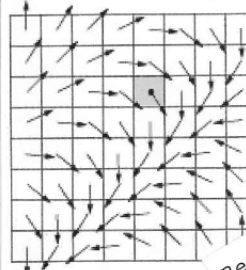

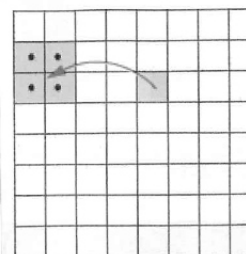

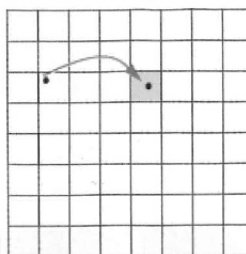

Remember! always type in the WVloc® in the same order:
WVway:WVpath to access *WVorb:WVplot*
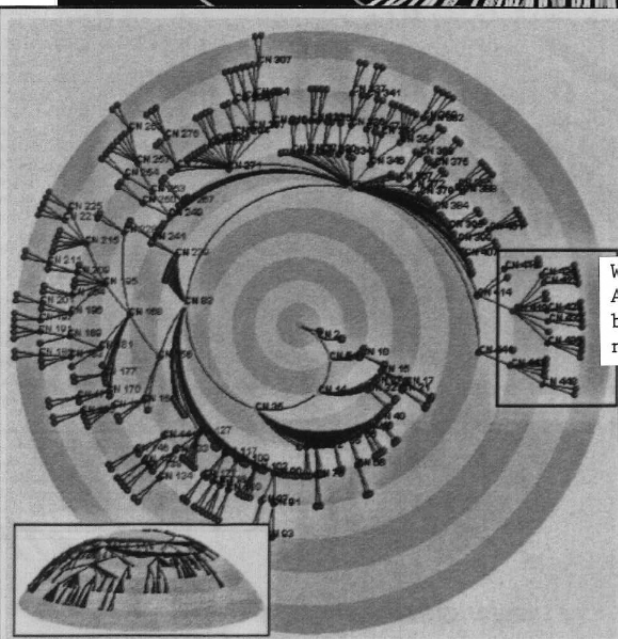

With the new Organizational Emotional Architecture Syntax™ (OEAS) developed by *Regional Integration Solutions, LLC*, now everyone can be a WVskater!

MS
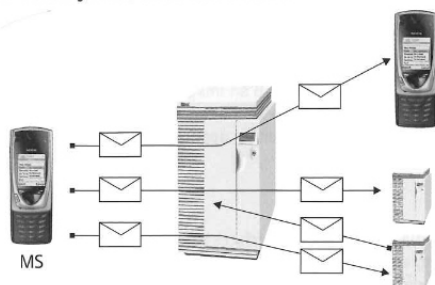

Skating the WEAVE®

By Barandishan Bu

Modern advances to *Regional Integration Solutions LLC*'s surveillance have facilitated an enormous increase in speed when skating the WEAVE®. Now, you can access content at walking speed from any point connected to at least three *Regional Integration Solutions LLC* vigilance monitoring centers, conveniently located throughout the globe. You can expand your knowledge of almost any topic, make new friends through dedicated WVorbs® or simply relax and listen to the best curated sounds this side of the Sun.

With a convenient avatar, you can create your own fictionalized, sanitized version of yourself.

Regional Integration Solutions LLC vigilance monitoring centers are easily accessible almost anywhere on the globe.

FAQ

with Dr. Jubb Jubbard, Esq. Chief Communications Officer, *Regional Integration Systems, LLC.*

Is the WVmote® good value for my money?

Yes! the WVmote® facilitates the simplest, most direct connection to the *WEAVE®*. Thanks to its native orblocking technology, developed by *Regional Integration Systems, LLC*, you can effectively plug and skate in a matter of minutes. Simply choose your orblock during the setup of your WVmote®, and forget about ever changing it again. Now, you need an individual WVdevice® for each WVorb® you desire to access, and collect all of the different styling options *Regional Integration Systems, LLC* offers for purchase. Show off in style with your collection of WVmotes®, Now available in Satin Blue, Dawn Red and Hot Pink!

Can my kids skate the *WEAVE®*?

Yes! with WVmote® KIDz and WVdeck® KIDz, your children can safely skate the *WEAVE* in style. You can also install *Regional Integration Systems LLC's* proprietary child protection software for a very reasonable recurring purchase, and ensure that your children skate only WVplots® pre-approved by you (Only compatible with WVmote® KIDz and WVdeck® KIDz. Talk to your regional distributor about acquiring child protection software).

Will my WVplot® purchase run out?

Yes! For your own skate safety, all WVplots® are sold on a subscription basis, which ensures you will never encounter stale, unattended or abandoned content on the *WEAVE*. By ensuring that all our customers are continuously invested in their WVplots®, we are creating a safer, more connected society.

Should I be concerned about safety on the *WEAVE®*?

All WVdevices® come preloaded with extensive surveillance software that will keep you safe and guarded at all times. However, our partners at *Discovery Systems and Networks LLC* also market excellent protection software that you can purchase for a small recurring price to make your skate sessions on the *WEAVE* even more secure! (sold separately. Talk to your regional distributor about acquiring enhanced protection software from *Discovery Systems and Networks LLC*).

Back image: the utopia that will only be achieved through total adoption of the *WEAVE*.
